

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims 1-39:

1. – 21. (Cancelled)

22. (Currently amended) A phosphorescent light cover comprising a base material and one or more phosphor compounds, which is in the form of an exterior sleeve equidistantly spaced from and completely encompassing a fluorescent globe, part or all of which allows light transmission, the light cover further comprising ~~an friction-fit~~ end pieces having with a rim that friction fits with an end of the sleeve and having an aperture or apertures through which fluorescent globe connection pins may penetrate.

23. (Previously Presented) The phosphorescent light cover according to claim 22 wherein the base material is a plastic.

24. (Original) The phosphorescent light cover according to claim 23 wherein the plastic is selected from one or more of polyethylene, polytetrafluoroethylene, polypropylene, poly(4-methylpentene-1), poly(tetrafluoroethylene), polyvinylchloride, polystyrene, polymethylmethacrylate, a polyurethane, a polycarbonate, a polysiloxane or poly(2,6-dimethylphenylene oxide).

25. (Original) The phosphorescent light cover according to claim 22 wherein the base material comprises polypropylene.

26. (Previously Presented) The phosphorescent light cover according to claim 22 wherein the phosphor is selected from one or more of strontium aluminate, alkaline earth metal sulphide, alkaline earth metal silicate oxide and zinc sulphide.

US 10/516,965

27. (Previously Presented) The phosphorescent light cover according to claim 22 wherein the phosphor is strontium aluminate.

28.-38. (Cancelled)

39. (new) The phosphorescent light cover according to claim 22 wherein the end piece comprises a neck that friction fits about the contact end of the globe.
